Bimeda Animal Health develops and manufactures a wide range of veterinary pharmaceuticals and animal health products which are sold in more than seventy-five countries across six continents. We focus on the development and delivery of high-quality products to treat and prevent disease and parasite infestation in livestock, poultry, equine and companion animals.

Water Soluble Manufacturing

With two manufacturing sites in the United States, Bimeda is at the forefront of water soluble production. The Le Sueur, MN site is approved to manufacture FDA-regulated products, and able to produce a wide range of packaging and container sizes.

Our Irwindale, CA facility specializes in penicillin/beta-lactam products.
